THUSITHA SAMPATH

ASSOCIATE SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

A passionate Associate Software Engineer with 11+ months of professional experience in full-stack web development, knowledgeable in JavaScript, CodeIgniter 4, PHP, and MySQL. Built scalable web applications, implemented multi-user systems, and performed developments such as employee and leave management modules. Passionate about clean code, UI/UX optimization, and continuous learning.

WORK EXPERIENCE

JFS ICT Services (Pvt) Ltd.

12 months

Colombo, Western Province, Sri Lanka

Associate Software Engineer

February 2025 - Present (6 months)

Working as an Associate Software Engineer, contributing to the development and optimization of full-stack web applications by writing clean, reusable, and optimized code following MVC best practices. My work involves collaborating with cross-functional teams to implement efficient solutions that enhance application functionality and user experience.

Currently leading the development of an Employees' Background Checking Web Application using Next.js and Tailwind CSS, focusing on building responsive UI, secure data handling, and modern user workflows to streamline HR verification processes.

Software Engineer Intern

August 2024 - January 2025 (6 months)

Completed a hands-on internship at JFS ICT Services (Pvt) Ltd, where I contributed to web application development, database management, and feature implementation using CodeIgniter framework and PHP. Worked closely with the team to enhance system functionality and optimize performance.

PROJECTS

Green Volunteer Network web application

(Individual)

- Developed a web system using Laravel framework to connect environmental volunteers with green initiatives.

Mobile application for construction field

(Group)

- Developed an Android mobile application named "BuildUp" using Java programming language in Android Studio.
